Adjournment

Medford City Council
Medford, Massachusetts

MEETING DATE

December 3, 2024

SPONSORED BY

Isaac Bears, Council President, Kit
Collins, Council Vice President

AGENDA ITEM

24-033 - Zoning Ordinance Updates with Innes Associates Team

FULL TEXT AND DESCRIPTION

This is the fifteenth zoning updates project meeting with Innes Associates. The following will be discussed:

- Introduction of the Salem Street Corridor zoning proposal to be further discussed at December 11th City Council Planning and Permitting Committee meeting
- General discussion of updates to the Zoning Ordinance

Be it Resolved by the Medford City Council that the Planning and Permitting Committee invite staff from the Office of Planning, Development, and Sustainability and Innes Associates, the Medford City Council's Zoning Consultant, to discuss our upcoming comprehensive review and update of the Zoning Ordinance.

Vice President Collins moved to refer the paper to the Planning and Permitting Committee (Councillor Scarpelli second)—referred to the Planning and Permitting Committee.

MEMORANDUM

To Members of the Planning and Permitting Committee
Alicia Hunt, Director of Planning, Development & Sustainability
Danielle Evans, Senior Planner
Brenda Pike, Climate Planner
Salvatore Di Stefano, Economic Development Director
Scott Vandewalle, Building Commissioner

From Paula Ramos Martinez, Senior Urban Designer/Planner

Date November 25, 2024

Project 23146 – Medford – Zoning - Revised

Subject Salem Street Corridor– Progress set for review and discussion

Cc: Emily Keys Innes, AICP, LEED AP ND, President
Jimmy Rocha, GIS Analyst/Data Scientist
Jonathan Silverstein, Blatman, Bobrowski, Haverty & Silverstein, LLC

This memorandum contains draft text for the following proposed zoning changes:

Amend Section 94-2.1. Division into districts	page 2
Amend Section 94-3.2 Table of Use Regulations (Table A) Dimensional Standards	page 3
Amend Section 94-4.1 Table of Dimensional Requirements (Table B)	page 9
Amend Section 94-12.0 Definitions (if needed)	page 10
Insert Section 94-9.X Salem Street Corridor District	page 12

Amend Section 94-2.1. Division into districts.

Add the following row to the table of zoning districts, as shown below:

Full Name	Classification	Abbreviation
Salem Street Corridor District	Residential, Office, and Commercial	SSCD

[the remainder of this page is blank]

Amend Section 94-3.2 Table of Use Regulations (Table A) by incorporating the following table into the existing table and renumbering as appropriate:

	Salem Street Corridor District					
	MF	MX-1	MX-2	Commercial	PC⁵	LC
A. RESIDENTIAL USES						
1. Detached one-unit dwelling	N	N	N	N	2 per Dwelling Unit	NA
2. Attached one-unit dwelling (Rowhouse)	N	N	N	N	1.5 per Dwelling Unit ⁴	NA
3. Detached two-unit dwelling (Duplex)	N	N	N	N	1.5 per Dwelling Unit ⁴	NA
4. Multiple dwelling	Y	Y	Y	N	1.5 per Dwelling Unit ⁴	NA
5. Dormitory, fraternity or sorority house	N	Y	Y	N	1 per 4 beds	1/15,000 s.f.
6. Lodging or boarding house	N	CDB	CDB	N	1 per Guestroom	1/15,000 s.f.
7. Senior housing facility	N	CDB	CDB	N	1 per 2 Units	1/15,000 s.f.
8. Co-living.	Y	N	N	N	1.5 per Dwelling Unit ⁴	NA
9. Co-housing.	Y	CDB	CDB	N	1.5 per Dwelling Unit ⁴	NA
10. Congregate Housing.	Y	N	N	N	1.5 per Dwelling Unit ⁴	NA
11. Three-unit dwelling, Detached.	Y	N	N	N	1.5 per Dwelling Unit ⁴	NA
12. Townhouse.	Y	N	N	N	1.5 per Dwelling Unit ⁴	NA
B. COMMUNITY USES						
1. Museum	N	Y	Y	CDB	1 per 750 s.f.	1/15,000 s.f.
2. Community center or adult recreational center, nonprofit	N	CDB	CDB	N	1 per 750 s.f.	1/15,000 s.f.
3. Use of land or structures for religious purposes on land owned or leased by a religious sect or denomination	Y	Y	Y	Y	1 per 140 s.f.	NA

	Salem Street Corridor District					
	MF	MX-1	MX-2	Commercial	PC ⁵	LC
4. Use of land or structures for educational purposes on land owned or leased by the Commonwealth or any of its agencies, subdivisions or bodies politic or by a religious sect or denomination or by a nonprofit educational corporation	Y	Y	Y	Y	1 per 750 s.f.	1/15,000 s.f.
5. Child care center or school aged child care program	Y	Y	Y	Y	1 per 750 s.f.	1/15,000 s.f.
6. Public fire station	Y	Y	Y	Y	1 per 2 employees	1/50,000 s.f.
7. Public library	Y	Y	Y	Y	1 per 750 s.f.	1/15,000 s.f.
8. Other municipal uses	Y	Y	Y	Y	NA	NA
9. Essential services	CDB	CDB	CDB	CDB	NA	NA
10. Hospital, nonprofit	N	N	N	N	1 per 4 beds	1/15,000 s.f.
11. Other Institution	CDB	CDB	CDB	CDB	1 per 750 s.f.	1/15,000 s.f.
C. OPEN RECREATIONAL AND AGRICULTURAL USES						
1. Private open recreational uses, available to the public	CDB	Y	Y	CDB	1 per 750 s.f.	1/15,000 s.f.

Section 94-9.X Salem Street Corridor District

94-9.X.1 Purpose

The purpose of the Salem Street Corridor District (SSCD) is to allow a mix of uses, including lower-scale residential, multifamily, and commercial to meet the following needs for this corridor:

1. Wider variety of uses and building types to support jobs and economic development near established residential neighborhoods, providing options for living within walking distance of jobs, goods, and services.
2. Mixed-use, multifamily, and commercial uses at a density appropriate to a walkable, urban corridor.
3. Design standards to buffer abutting neighborhoods from the higher intensity of uses and reinforce a corridor identity along the length of Salem Street.

94-9.X.2 Applicability

The SSCD replaces the existing zoning districts and is shown on the Zoning Map, City of Medford, Massachusetts, as amended. An applicant may develop within this district in accordance with the provisions of Section 94-9.X and other relevant sections of the Zoning Ordinance.

1. The SSCD is comprised of the following subdistricts:
 - a. **Multi-unit residential.** The Multi-unit Subdistrict allows buildings of 3-6 units within a corridor, square or neighborhood hub district. The intent for this district is to transition from a higher level of development intensity along corridors or within squares to the lower level of adjacent Neighborhood Districts.
 - b. **Mixed-use 1.** The Mixed-Use 1 Subdistrict allows a mix of residential and commercial uses at a lower scale of building size and massing.
 - c. **Mixed-use 2.** The Mixed-Use 2 Subdistrict allows a mix of residential and commercial uses at a medium scale of building size and massing.
 - d. **Commercial.** The Commercial subdistrict does not include residential uses. The buildings vary in scale and massing. A greater variety of commercial uses are allowed in this district than in the mixed-use districts.

94-9.X.3 Dimensional Requirements and Waivers.

The following waivers are available to the Site Plan Review or Special Permit Authority for projects within the SSCD.

- a. **Front Setbacks.** The building façade must be set back from the lot line at a distance sufficient to create a 12-foot sidewalk in conjunction with an existing City sidewalk. A maximum setback of an additional ten feet is allowed for the purpose of creating an active public plaza.

- b. **Side and Rear Setbacks.** A setback next to an existing lot with a residential use of fewer than 5 units must include a landscaped buffer at least 10 feet wide or a fence of eight feet in height a minimum of five feet from the lot line. The area between the lot line and the fence must be landscaped. The property owner must maintain the buffer, landscaping, and fence, as applicable.
- c. **Multi-Building Lots.** In the SSCD, lots may have more than one principal building.
- d. **Ground Floor Active Use.** Active uses are required on the ground floor of any building abutting Salem Street subject to the percentages set forth in Section 94-4.1 Table of Dimensional Requirements (Table B). Active uses are defined as arts-related uses, retail (including retail accessory to an artisanal, maker, or manufacturing use), restaurant, personal services, publicly-accessible spaces, residential lobbies and common amenities, and other uses that encourage high levels of pedestrian activity and create a perception of safety.
- e. **Transition to adjacent residential districts.** Buildings adjacent to a residential zoning district should step down to the base height required by the subdistrict of the SSCD in which the project is located for any buildings between twenty and thirty feet of the rear or side setback abutting a parcel within that residential zoning district. If the side or rear setback is adjacent to an active public way, no stepback is required.
- f. **Setbacks for Infill Lots.** If the adjacent buildings are set back at a distance that exceeds the minimum front yard requirements, infill buildings shall meet the requirements of Section 94-4.1 Table of Dimensional Requirements. Otherwise, infill buildings may match the setback line of either adjacent building or an average of the setback of the two buildings to provide consistency along the street.
- g. **Drop-off zone.** The required setback distances may be waived to allow for a cut-out along the curb for loading and short-term parking for deliveries or drop-off/pick-up zones. Such a cut-out must be coordinated with City staff. The required setback distances may also be waived to allow a development to meet the requirements of Chapter 91.
- h. **Height Waiver 1.** The limitation on the height of buildings shall not apply to chimneys, ventilators, towers, silos, spires, or other ornamental features of buildings, which features are in no way used for living purposes and do not constitute more than 25% of the ground floor area of the building.
- i. **Height Waiver 2.** The minimum height requirement may be waived by a Special Permit from the Community Development Board for projects that are consistent with the purpose of the district and the goals of the Medford Comprehensive Plan.
- j. **Energy-Efficiency.** The Site Plan Review Authority or Special Permit Granting Authority may waive the height and setbacks in 94-9.X.6 Development Standards to accommodate the installation of solar photovoltaic, solar thermal, living, and other eco-roofs, energy storage, and air-source heat pump equipment. Such installations shall not create a significant detriment to abutters in terms of noise or shadow and must be appropriately

integrated into the architecture of the building and the layout of the site. The installations shall not provide additional habitable space within the development.

94-9.X.4 Development Incentives

In exchange for incorporating certain provisions that further the City's goals for affordability, economic development, environmental sustainability, and climate resiliency, Applicants may receive Development Incentive Bonuses that allow for certain development permissions beyond what is allowed as of right. These permissions include one or more additional stories, up to the maximum number of stories allowed in each subdistrict. Additional stories must comply with any setback, setback, or other dimensional requirements and the development and design standards in 94-9.X.6 Development Standards.

Table of Development Incentive Bonuses.						
Incentive 1: Affordability						
Incentive 1A: Deeper Affordability:						
	# of Lots or Units in Proposed Project	Required Minimum/Total Percentage of Affordable Units at 80% AMI	For One Additional Floor		For Two Additional Floors	
			Minimum Percentage of Affordable Units at 80% AMI	Minimum Percentage of Affordable Units at 65% AMI	Minimum Percentage of Affordable Units at 80% AMI	Minimum Percentage of Affordable Units at 65% AMI
1	10-24	10%	8%	2%	5%	5%
2	25-49	13%	8%	5%	6%	7%
3	50 +	15%	10%	5%	8%	7%
Incentive 1B: More Affordable Units:						
	# of Lots or Units in Proposed Project	Required Minimum Percentage of Affordable Units at 80% AMI	For One Additional Floor		For Two Additional Floors	
			Additional Percentage of Affordable Units at 80% AMI	Total Percentage of Affordable Units at 80% AMI	Additional Percentage of Affordable Units at 80% AMI	Total Percentage of Affordable Units at 80% AMI
1	10-24	10%	3%	13%	5%	15%
2	25-49	13%	3%	16%	5%	18%
3	50 +	15%	3%	18%	5%	20%
Incentive 2: Community Amenities (privately maintained)						
<ul style="list-style-type: none"> Indoor pedestrian seating or outdoor pedestrian plaza Neighborhood open space: <ul style="list-style-type: none"> Pocket Park Garden 					1 additional half-story for each element	

Table of Development Incentive Bonuses.	
<ul style="list-style-type: none"> • Playground • Skate Park • Fountain / Water element 	
<ul style="list-style-type: none"> • Low-Income Shared Community Solar 	To be confirmed.
Incentive 3: Community Amenities (publicly maintained)	
<ul style="list-style-type: none"> • Streetscape Improvements along a public street 	1 additional half-story
Incentive 4: Vibrant Neighborhoods	
Parking concealed below grade or within a building structure.	1 additional half-story
Provide a minimum of 50% or the ground floor at rents no less than 15% below market for a minimum tenancy of three years to qualified nonresidential tenants (nonprofits, local business under 10 employees)	1 additional story
Incentive 5: Environmental Resilience	
Ideal Green Score	1 additional story
Building is certified as Net Zero Emissions Building	1 additional story
Development is: <ul style="list-style-type: none"> • Certified as LEED Platinum or equivalent standard 	1 additional story

94-9.X.5 Design Guidelines and Applicability of Development Standards

1. **Design Guidelines.** The Community Development Board may adopt and amend, by simple majority vote, Design Standards which shall be applicable to all rehabilitation, redevelopment, or new construction submitted under this SSCD. Such Design Guidelines may address the scale and proportions of buildings, the alignment, width, and grade of streets and sidewalks, the type and location of infrastructure, the location of building and garage entrances, off-street parking, the protection of significant natural site features, the location and design of on-site open spaces, exterior signs, and buffering in relation to adjacent properties. Design Guidelines may contain graphics illustrating a particular standard or definition to make such standard or definition clear and understandable.
2. **Applicability of Development Standards.** Sections 94-9.X.6 Development Standards shall apply to all projects submitted under this SSCD. These standards, along with any Design Guidelines adopted under paragraph 1, above, are components of the Site Plan Review and Special Permit processes as defined in this Zoning Ordinance.

94-9.X.6 Development Standards

1. **Site Standards.**
 - a. **Connections.** Sidewalks shall provide direct connections among building entrances, the public sidewalk (if applicable), bicycle storage, and parking.

- b. **Sidewalk Width.** Along Salem Street, for any lot abutting a public sidewalk that is less than twelve (12) feet in width, the frontage area must be paved to provide a sidewalk that is at least twelve (12) feet in total width.
- c. **Sidewalk Materials.** Sidewalks shall be continuous across driveways, using the same materials and grade and level as the sidewalk on either side of the driveway.
- d. **Vehicular access.** Where feasible, curb cuts shall be minimized, and shared driveways encouraged. Curb cuts for one-way access shall be no more than twelve (12) feet in width, while curb cuts for two-way traffic shall be no more than twenty (20) feet in width. Designated drop-off and pick-up areas for deliveries and ride-sharing companies should be incorporated to reduce conflicts associated with double-parking and blocking of bicycle lanes, crosswalks, and bus stops. These areas should be clearly marked with signs and conveniently located near entrances to buildings and major destinations.
- e. **Circulation.** Parking and circulation on the site shall be organized to reduce the amount of impervious surface. Where possible, parking and loading areas shall be connected to minimize curb cuts onto public rights-of-way.
- f. **Open Space.** Open Space shall be contiguous and connected to the pedestrian network. Isolated pockets of space that cannot be accessed for maintenance are prohibited. Open Space may be either private or public. Public open space shall be in the front or side setback. A minimum third of the requested open space, permeable, shall be landscaped.
- g. **Screening for Surface Parking.** Surface parking adjacent to a public sidewalk shall be screened by a landscaped buffer of sufficient width to allow the healthy establishment of trees, shrubs, and perennials, but no less than [6 (six)] feet. The buffer may include a fence or wall of no more than three feet in height unless there is a significant grade change between the parking and the sidewalk. Chain-link and vinyl fences are prohibited.
- h. **Parking Materials.** The parking surface may be concrete, asphalt, decomposed granite, bricks, or pavers, including pervious materials but not including grass or soil not contained within a paver or other structure.
- i. **Plantings.** Plantings shall include species that are native or adapted to the region. Plants on the Massachusetts Prohibited Plant List, as may be amended, shall be prohibited.
- j. **Lighting.** Light levels shall meet or exceed the minimum design guidelines defined by the Illuminating Engineering Society of North America (IESNA) and shall provide the illumination necessary for safety and convenience while preventing glare and overspill onto adjoining properties and reducing the amount of skyglow.
- k. **Mechanicals.** Mechanical equipment at ground level shall be screened by a combination of fencing and plantings. Rooftop mechanical equipment shall be screened if visible from a public right-of-way.
- l. **Dumpsters.** Dumpsters shall be screened by a combination of fencing and plantings. Dumpsters or other trash and recycling collection points located within the building are preferred.

- m. **Stormwater management.** Strategies that demonstrate the compliance of the construction activities and the proposed project with the most current versions of the Massachusetts Department of Environmental Protection Stormwater Management Standards, the Massachusetts Stormwater Handbook, Massachusetts Erosion Sediment and Control Guidelines, and the City of Medford's Stormwater Management Rules and Regulations. The applicant shall also provide an Operations and Management Plan for both the construction activities and ongoing post-construction maintenance and reporting requirements.

2. General Building Standards.

- a. **Position relative to the principal street.** The primary building shall have its principal façade and entrance facing the principal street.
- b. **Entries.** Where feasible, entries shall be clearly defined and linked to a paved pedestrian network that includes the public sidewalk.

3. Multiple buildings on a lot.

- a. **Location of Mixed Uses.** For a mixed-use development, uses may be mixed within the buildings or in separate buildings.
- b. **Orientation.** The orientation of multiple buildings on a lot should reinforce the relationships among the buildings. All building façade(s) shall be treated with the same care and attention in terms of entries, fenestration, and materials.
- c. **Position relative to the street.** Building(s) adjacent to a public street shall have a pedestrian entry facing that public street.

4. Mixed-use development.

- a. **Access.** In a mixed-use building, access to and egress from the residential component shall be clearly differentiated from access to other uses. Such differentiation may occur by using separate entrances or egresses from the building or within a lobby space shared among different uses.
- b. **Connections.** Paved pedestrian access from the residential component shall be provided to residential parking and amenities and to the public sidewalk, as applicable. Paved surfaces may include pervious paving materials.
- c. **Material Storage.** Materials for non-residential uses shall be stored inside or under cover and shall not be accessible to residents of the development.
- d. **Shared Outdoor Space.** Multi-family housing and mixed-use development shall have common outdoor space that all residents can access. Such space may be in any combination of ground floor, courtyard, rooftop, or terrace. All outdoor space shall count towards the project's minimum Open Space requirement.

- 5. **Corner Lots.** A building on a corner lot shall indicate a primary entrance either along one of the street-facing façades or on the primary corner as an entrance serving both streets.

- a. **Connections.** Such entries shall be connected by a paved surface to the public sidewalk, if applicable.
 - b. **Façade Design.** All façades visible from a public right-of-way shall be treated with similar care and attention in terms of entries, fenestration, and materials.
 - c. **Fire Exits.** Fire exits serving more than one story shall not be located on either of the street-facing façades.
6. **Parking.** Parking shall be subordinate in design and location to the principal building façade.
- a. **Surface parking.** Surface parking shall be located to the rear or side of the principal building. Parking shall not be in the setback between the building and any lot line adjacent to the public right-of-way.
 - b. **Integrated garages.** The principal pedestrian entry into the building shall be more prominent in design and placement than the vehicular entry into the garage.
 - c. **Parking structures.** Above-grade parking structures (stand-alone or within a residential, commercial, or mixed-use building) shall be subordinate in design and placement to the primary uses. Ground-floor parking levels shall be wrapped with active uses such as commercial/retail, community spaces, or residential amenity spaces. Exposed facades of upper parking levels shall incorporate design treatments such as public art installations, vertical planting, or other architectural features for visual interest and to disguise the parking uses within. Vehicular openings shall have doors.
 - d. **Electrical Vehicle (EV) Charging Spaces.** One EV charging space is required for every twenty (20) parking spaces, rounded up to the next highest number of EV stations.
 - e. **Bicycle parking.** For a multi-family development or a mixed-use development, a minimum of 50% of the required bicycle spaces shall be covered or integrated into the structure of the building(s). E-bike storage is only permitted in an area that is separated from the dwelling units by a fire-rated structure.
7. **Waivers.** Upon the request of the Applicant, the Site Plan Review Authority may waive the requirements of 94-9.X.6 Development Standards in the interests of design flexibility and overall project quality and upon a finding of consistency of such variation with the overall purpose and objectives of the SSCD.

94-9.X.5 Affordability Requirements

Development in the SSCD is subject to the requirements of Section 94-8.1 Inclusionary Housing.
